12. Citations	22

1. General Information

Work Address: University of Patras, Electrical and Computer Engineering Department,
Rio Patras, Greece

Tel. +30 2610 996440, Mob. +30 6946517107, Fax 2610 996818

e-mail: gialelis@ece.upatras.gr, gialelis@isi.gr

2. Degrees

- PhD - Electrical and Computer Engineering Department, University of Patras, Patras, GREECE. Title: "Based on Standards Semantics Modeling & Orchestration of Industrial Processes Utilizing Contemporary Internet Technologies"
- MSEE - Electrical Engineering Department, Polytechnic Institute of New York University (NYU Poly), New York, U.S.A.
- BSEE - Electrical Engineering Department Farleigh Dickinson University (FDU), New Jersey, USA

3. Positions / Experiences

- 2000 - Today: Tenured Laboratory Teaching Staff in the Electrical and Computer Engineering Department, University of Patras, Greece
- 2008 – 2012 Adjunct Assistant Professor (PD 407/80) in the Computer Engineering & Informatics Department (CEID), University of Patras, Greece
- 1998 – Today: Collaborating Research Engineer in the Industrial Systems Institute / RC ATHENA (ISI)
- 1990 – 2000: Research Engineer in the Applied Electronics Laboratory of the Electrical and Computer Engineering Department, University of Patras, Greece

4. Laboratory Courses Instructor

- Analog Integrated Electronics (3rd year, UPAT_ECE Dept)
- Digital Integrated Circuits and Systems (3rd year, UPAT_ECE Dept)

5. Courses co-Teaching

- Software Engineering (4th year, CEI Dept, UPAT)

- Software Quality Assurance and Standards (4th year, CEI Dept, UPAT)
- Web Services (5th year, ECE Dept, UPAT)
- Software Engineering (2nd year, Integrated Hardware and Software Systems-OSYL, UPAT)
- Software Agents Methodologies (1st year, Distributed Green Electric Power and the Advanced Network Infrastructure for its Management and Economy, UPAT)

6. Notable Scientific Activities

- 2017 – Present: MC member to COST Action CA16235 Performance and Reliability of Photovoltaic Systems: Evaluations of Large-Scale Monitoring Data (PEARL-PV)". This COST Action aims to increase performance and lower costs of electricity produced by photovoltaic (PV) solar electricity systems in Europe via (i) obtaining higher energy yields, (ii) achieving longer operational life time and (iii) lowering the perceived investment risk in PV projects.
- 2013 - 2017: MC Substitute member to COST Action IC1303 "Algorithms, Architectures and Platforms for Enhanced Living Environments (AAPELE)". This action addresses the issues of defining software, hardware and service architectures for AAL, on studying and creating more efficient algorithms for AAL, particularly those related to the processing of large amounts of data and of bio signals in lossy environments, and on the research on studying communication and data transmission protocols for AAL.
- 2000-2003: ELOT EN ISO 9001 Quality System Assurance Manager regarding the research - development activity: "Design, development and support of industrial systems" of the Applied Electronics Laboratory, of the Electrical and Computer Engineering Department, University of Patras, Greece
- Regular Reviewer in International Scientific Journals: SENSORS Open Access Journal by MDPI (IF 2.475), IEEE Transactions on Industrial Electronics (IF 7.05), IEEE Transactions on Industrial Informatics (IF 5.43), Proceedings of the IEEE (IF 9.107), SPRINGER Journal of Ambient Intelligence and Humanized Computing (IF 1.423), ELSEVIER Computers & Electrical Engineering (IF 1.747), IEEE Embedded Systems Letters, ACM Transactions on Embedded Computing Systems, Journal of Intelligent and Robotic Systems, Transactions on IEICE/IEEE Joint Special Section on ISADS

- Regular Reviewer in International Scientific Conferences: IOP2018, IEEE IECON, IEEE ISSPIT, IEEE WFCS, IEEE ETFA, IEEE ISIE, IEEE ICIT, PDCCS, ICEAC, ICT,
- Proposal evaluator on behalf of the General Secretariat of Research and Technology (GSRT) that belongs in the Hellenic Ministry of Education Lifelong Learning and Religious Affairs for the:
 - Operational Program for Human Resource and Development
 - Bilateral R&D Cooperation between Greece and China 2012-2014

7. Research Interests

Industrial IoT

- Device Profile
- Edge Computing
- Low power consumption, reliability
- Distributed ledgers
- Embedded Security, Privacy and Dependability (SPD)

Machine Learning

- Knowledge Deduction
- Knowledge Representation – Ontology Engineering

8. International Conferences Committees

1. 2018 HealthyIoT, 5th EAI International Scientific Event on Internet of Things and Healthcare, Technical Program Committee Member
2. 2018 HPCS 2018, Special Session on Digital Home Networks & Ambient Intelligence (DHN-Aml), Technical Program Committee Member
3. 2018 Symposium on Internet of Things, Fog Computing, and Wireless Location Technologies (SIFL'18), Technical Program Committee Member
4. 2018 5th International Conference of Engineering Against Failure ICEAF V, Session Chair
5. 2016 GOODTECHS, 2nd EAI International Conference on Smart Objects and Technologies for Social Good, Smart Things for Active and Assisted Living (ST4AAL), Technical Program Committee Member
6. 2014 IEEE International Conference on Emerging Technologies and Factory Automation (ETFFA'2014), Special Session Chair

7. 2013 IEEE International Symposium on Signal Processing and Information Technology (ISSPIT'2013), Publicity Chair
8. 2013 IEEE International Conference on Emerging Technologies and Factory Automation (ETFA'2013), Special Session Chair
9. 2012 IEEE International Conference on Industrial Technology (ICIT'2012), Special Session Chair and Publication Chair
10. 2012 IEEE International Conference on Emerging Technologies and Factory Automation (ETFA'2012), Special Session Chair
11. 2011 IEEE International Conference on Emerging Technologies and Factory Automation (ETFA'2011), Special Session Chair
12. 2010 IEEE International Conference on Emerging Technologies and Factory Automation (ETFA'2010), Special Session Chair
13. 2009 IEEE International Symposium on Autonomous Decentralized Systems (ISADS'2009), Publicity Chair
14. 2009 IEEE International Conference on Emerging Technologies and Factory Automation (ETFA'2009), Special Session Chair
15. 2008 IEEE International Conference on Emerging Technologies and Factory Automation (ETFA'2008), Special Session Chair
16. 2007 IEEE International Conference on Emerging Technologies and Factory Automation (ETFA'2007), Special Session Chair

9. Diploma Theses Supervision

Finalized

1. 2015: Konstandinos Katerinopoulos (AM7193) "Rating control technologies for the availability of parking spaces and development of a monitoring app"
2. 2016: Panagiotis Pavlou (AM7609) "Application of a Computational Platform for the analysis and Presentation of EEG Signals"
3. 2018: Krizea Maria (AM8097) "Algorithmic Application of Vital Signal Processing to Determine Patient Status"

Ten (10) Diploma Theses are in Progress

10. Research and Development Projects (after 2005)

1. 2020 – 2023: CSI – COP “Citizen Scientists Investigating Cookies and App GDPR compliance”, No: 873169, HORIZON 2020-SWAFS-2019-1, Action: Systematic, transdisciplinary approach to recruit, train, motivate and sustain a community of citizen scientists investigating compliance with the general data protection regulations (GDPR) in website cookies and apps on smart devices (phones; tablets). Role: Scientific responsible
2. 2018 – 2020: AgriIoT "Smart Services Based on the Internet of Things to Support Agriculture" Operational Program Western Greece 2014 -2020, Action: Support to Small and Medium Enterprises for research projects in the Microelectronics Sector (including Embedded Systems and Innovative IT applications) aiming at providing an integrated solution regarding precision farming based on the Internet of Things (IoT) technology. Role: Scientific responsible
3. 2019 – 2020: MeAct “Integrated Active Citizen Assistance System” Operational Program Western Greece 2014 -2020, Action: Strengthening the Development and Innovation Research Projects in the RIS3 Priority Area “Information Communications Technology (ICT)” aiming at developing a wearable system of biosensors and wellness sensors. Role: Scientific responsible
4. 2019 – 2020: PANOPTIS “Cloud Services Platform to Strengthen Traceability and Quality of Plant and Animal Production Products ” Operational Program Western Greece 2014 -2020, Action: Strengthening the Development and Innovation Research Projects in the RIS3 Priority Area “AgroFood” aiming at developing a an Electronic Identification (RFID) based Product Traceability System with a built-in Sensitive Collection and Critical Information Sensor with Wireless Capability. Role: Scientific responsible
5. 2018 – 2021: BioS “Digital Skills on Computational Biology for Health Professionals” (ERASMUS+ - EACEA): BioS targets at the development of a VET training programme in Computational Biology (Bioinformatics), aiming at enhancing the digital skills of health professionals on running bioinformatics tools and in handling big biological data. Role: Scientific responsible
6. 2018 – 2021: IntelTriage “Intelligent system for priority sorting and monitoring of medical incidents” (INVESTIGATE-CREATE-INNOVATE 2017). IntelTriage aims at

- the development of an intelligent system of dynamic triage and in-service planning of incoming hospital clinic incidents and the efficient 24-hour follow-up of admitted incidents in clinics using bio-sensors. Role: Scientific responsible
7. 2017 – 2020: A4B&D “ASTRONOMY FOR BLIND AND DISABLED” (ERASMUS+ -IKY): A4B&D targets at the development of the digital means and technology for the visually impaired people to have access in astronomy. Role: Scientific Responsible for the whole project
 8. 2018 – 2020: CI – Innovatec “Customer Intelligence for Innovative Tourism Ecosystems” (INTERREG GREECE-ITALY). CI-NOVATEC aims to enhance local Tourism Ecosystems performance by introducing and setting-up innovative techniques & technologies for collecting experience related (result-driven), visitor (bottom-up) data, which will be analyzed to outline customer (tourists) intelligence to better understand economic performance of Local Tourism Clusters in order to assist business-level & policy-level decision making and therefore to boost sustainability and efficiency of CBC area cluster SMEs. Role: Scientific responsible
 9. 2017 – 2020: I3T “Innovative Application of Industrial Internet of Things (IIoT) in Smart Environments” (STRATEGIC ACTIVITIES FOR THE DEVELOPMENT OF RESEARCH AND TECHNOLOGICAL BODIES). I3T proposes innovative solutions for the application of innovative technologies in Smart Energy, including the distributed electrical energy production and transfer (smart grid) as well as the dimension of a medium / large consumer, such as a Smart Building. Role: Researcher
 10. 2012–2015: h-SEAT “Healthy Sleep and Exercise Analysis Tool” (LEAD ERA 2012). h-SEAT project developed a unique and evolving solution, encompassing a full set of medical devices, which are either fixed or mobile, along with the analysis and interpretation of integrated medical data which will help the elderly’s sleep re-education regarding healthy routines and exercises. Role: Scientific responsible
 11. 2013–2015: DynaCargo (Greek COOPERATION-2011): Development of a cargo-centric dynamic transport management system. Role: Scientific Responsible
 12. 2012–2014: SELIDA (Greek COOPERATION-2009): Development of a comprehensive and innovative system for the management of printed material

(books, publications) based on RFID technology and its efficient interconnection with Back Office systems and the use of web services (Object Naming Service - ONS). Role: Scientific Responsible for the whole project.

13. 2012–2015: KATHODIGOS (Greek COOPERATION-2009) Integrated System for Urban Road Assistance based on Cooperative Nodes: Development of an innovative adaptive system based on integration of wired sensors and distributed cooperative wireless nodes with advanced applications aiming in real-time recording and diffusion of information for monitoring the availability of controlled parking seats and for supporting optimal usage of urban roads. Role: Scientific Responsible
14. 2011-2014: ARTEMIS-2010-1, 269317, “New embedded Systems architecture for multi-Layer Dependable solutions” (nSHIELD). The nSHIELD project aims at addressing Security, Privacy and Dependability (SPD) issues in the context of Embedded Systems (ESs) as “built in” rather than as “add-on” functionalities, perceiving the strategy to be the first step towards SPD certification for the future ES, throughout an holistic approach. Role: Scientific Responsible
15. 2010–2013: ARTEMIS-2009-1, 100228, “Cyclic and person-centric Health management: Integrated approach for home, mobile and clinical environments” (CHIRON). The CHIRON project intends to combine state-of-the art technologies and innovative solutions into an integrated framework designed for an effective and person-centric health management along the complete care cycle. Role: Scientific Responsible
16. 2009 – 2012, ARTEMIS-2008–1, 100016: “Cost-efficient Methods and Processes for Safety Relevant Embedded Systems” (CESAR). CESAR addresses the industrial needs for embedded system development for safety relevant applications by developing ultra-reliable embedded components for use in an extremely competitive global market requiring drastic cost reductions. Role: Technical Responsible
17. 2009 – 2012: ITEA 2 – 2008 - Call3, ip08004, “Cooperative Advanced REsearch for Medical Efficiency” (CARE4ME). The outcome of this project are clinical prototypes of novel medical image analysis and decision support systems for three specific disease areas (cancer, cardio-vascular and neurodegenerative

disease), that connect to the hospital information systems using a new system architecture. Role: Technical Responsible

18. 2008 – 2011: FP7, ICT – 224119: “Pan-European Laboratory Infrastructure Implementation” (PII). PII addresses the need for large-scale testing facilities in the communications area by implementing an infrastructure for federating testbeds. The central objective of PII is to create a test bed federation among regional innovation clusters in Europe. This will enable companies participating in these clusters to test new communication services and applications across Europe. Role: Technical Responsible

19. 2006 – 2010: FP6 IST NoE – 38419: “Interactive Media with Personal Networked Devices” (INTERMEDIA) : <http://intermedia.miralab.unige>. ISI’s main task is the development of a framework to provide secure multimedia services over a wide variety of hardware devices, seamlessly in a complete solution that enables the use of heterogeneous security primitives, considering the differing capabilities of the hardware components. The resulting protocols and mechanisms will be evaluated for operation in resource limited environments. The communication interface will be designed appropriately, so that it can support the heterogeneity of the interconnected devices. Role: Technical Responsible

20. 2006 – 2008: HYGIEIA (Greek EPAN): Implementation of a wearable sensor network and advanced interactive system for the health monitoring with off-the-shelf compliant network nodes and custom-built physiological parameters sensors. Discovery of semantically enriched medical services is also being considered as a potential outcome of the project. Role: Technical responsible

21. 2006 – 2008: GAIA (Greek EPAN / INTERNATIONAL COLLABORATION): Innovative methodology for the integration of information systems in the largest petroleum industry in Greece based on the implementation of semantically enriched web services. Relevant semantics accrued from process and product ontologies incorporating terms and concepts from the whole range of oil life-cycle stages. Role: Technical responsible

22. 2006 – 2008 : METHODIKA (Greek PEP-WG): Development of innovative methodologies in regard to management, administration and operation of

distributed virtual enterprises for software system development based on the implementation of existing standard process ontologies. Role: Researcher

23. 2005 - 2008 FP6 IST– 016649: “PABADIS based Product Oriented Manufacturing Systems for Re-Configurable Enterprises” (PABADIS PROMISE): ISI’s main task was the development of a new control architecture based on distributed intelligence, a new manufacturing ontology, an embedded Real-Time agent platform for control, a new generation of RFID’s, a new generation of field control devices and building blocks for the new generation of Enterprise Resource Planning systems. Manufacturing ontology fragmentation for efficient utilization and agent model semantic mark-up are also being implemented. Role: Researcher
24. 2004 – 2006: CLIO (Greek EP-KtP): Design, implementation and operation of an integrated information and workflow management framework by exposing ERP functionality via semantically enriched web services utilizing process ontology semantics and WFMS which were implemented during the project. Role: Researcher
25. 2004 – 2006: C2S2 (Greek EPAN): Design, implementation and operation of an integrated interactive B2B system based on the utilization of the Rosetta Net inter-enterprise process ontology as well as a food product ontology which was implemented. Role: Researcher

Serpanos, "Identifying Chronic Disease Complications Utilizing State of the Art Data Fusion Methodologies and Signal Processing Algorithms", 2nd International ICST Conference on Wireless Mobile Communication and Healthcare - MobiHealth 2011, pp. 256-263
51. S.-M Dima, J. Gialelis, S. Koubias, "Knowledge based actor to actor coordination in Wireless Sensor and Actor Networks", 16th IEEE International Conference on Emerging Technologies and Factory Automation, ETFA2011.
52. J. Gialelis, "Mechanisms for identifying patient's uniqueness based on data mining algorithms", 2011 Conference on Wearable Micro and Nano Technologies for Personal Health, pHEALTH 2011.

2010

53. J. Gialelis, D. Karadimas, P. Chondros, D. Serpanos, "Collaborative B2B e-Commerce Utilizing Semantic Web-Services and Smart Agents", Networking and Electronic Commerce Research Conference 2010 (NAEC 2010), 2010.
54. C. Panagiotou, J. Gialelis, S. Koubias, D. Serpanos, "An agent-based middleware imposing intelligence over critical infrastructures utilizing Wireless Sensor Networks, Proceedings of the IEEE International Conference on Emerging Technologies and Factory Automation, ETFA2010, September 2010.
55. I. Samaras, J. Gialelis, G. Hassapis, "A Service Oriented-based System for Real Time Industrial Applications", in the Proceedings of the IEEE International Conference on Emerging Technologies and Factory Automation, ETFA2010, September 2010.
56. M. Repetto, R. Rapuzzi, S. Chessa, S. Lenzi, J. Gialelis, A. Fragopoulos, "The InterMedia networking and security architecture for user centric multimedia convergence", Proceedings of 2010 International Symposium on Performance Evaluation of Computer and Telecommunication Systems, SPECTS 2010, July 2010.
57. A. Fragopoulos, J. Gialelis, D. Serpanos, « Imposing Holistic Privacy and Data Security on Person Centric eHealth Monitoring Infrastructures», Proceedings of

the 12th IEEE International Conference on E-HEALTH Networking, Applications & Services, IEEE HEALTHCOM'10 , July 2010.

2009

58. I. Samaras, J. Gialelis, G. Hassapis, V.Akpan, "Utilizing Semantic Web Services in Factory Automation towards Integrating Resource Constrained Devices into Enterprise Information Systems", Proceedings of the IEEE International Conference on Emerging Technologies and Factory Automation, ETFA2009, 2009
59. I. Samaras, J. Gialelis, G. Hasapis, "Integrating Wireless Sensor Networks into Enterprise Information Systems by Using Web Services" Proceedings of the Third International Conference SENSORCOMM 2009, pp.580 – 587, June 2009.
60. Fragopoulos, A.; Gialelis, J.; Serpanos, D.; , "Adaptive DRM framework in user-converged multimedia ecosystems, utilizing MPEG-21 semantics," Proceedings of the International Symposium on Autonomous Decentralized Systems 2009. ISADS '09, pp.1-6, 23-25 March 2009.

2008

61. A.P. Kalogeras, C. Alexakos, M. Georgoudakis, J. Gialelis, and S. Koubias, "Semantics in the manufacturing environment - a multiple syntax representation approach for the interoperable information exchange between heterogeneous systems", 2nd International Workshop on Advanced Manufacturing Systems (WAMS2008), 2008.
62. J. Gialelis, D. Karadimas, P. Chondros, A. Kalogeras, S. Koubias, D.Serpanos, "Web Services based Collaborative B2B e-commerce in the Oil Industry", Proceedings of the International Conference on Parallel and Distributed Computing and Communication Systems, PDCCS 2008
63. J. Gialelis, P. Foundas, A. Kalogeras, M. Georgoudakis, A. Kinalis, S. Koubias, "Wireless Wearable Body Area Network Supporting Person Centric Health Monitoring", Proceedings of the IEEE International Workshop on Factory Communication Systems, WFCS2008
64. M. Georgoudakis, C. Alexakos, A. Kalogeras, J. Gialelis, S. Koubias, "Ontology-based agent modeling - a formal methodology to incorporate a domain ontology

in a multi-agent system”, Proceedings of the IEEE International Workshop on Factory Communication Systems, WFCS2008

2007

65. A.P. Kalogeras, L. Ferrarini, A. Lueder, J. Gialelis, C. Alexakos, J. Peschke, C. Veber, “Ontology-driven Control Application Design Methodology”, Proceedings of the IEEE International Conference on Emerging Technologies and Factory Automation, ETFA2007, pp. 1425-1428.
66. M. Georgoudakis, C. Alexakos, A.P. Kalogeras, J. Gialelis and S. Koubias, “Methodology for the efficient distribution a manufacturing ontology to a multiagent system utilizing a relevant Meta-Ontology” Proceedings of the IEEE International Conference on Emerging Technologies and Factory Automation, ETFA2007, pp. 1210-1216.
67. T. Fragopoulos, A. Athanasopoulos, A. Vogiatzis, E. Topalis, J. Gialelis, S. Koubias, “Security and DRM in Indoor/Outdoor Heterogeneous Networking Applications for User – Centric Frameworks”, Proceedings of the IEEE International Conference on Emerging Technologies and Factory Automation, ETFA2007, pp. 651-656.
68. A. Peternier, X. Righetti, M. Hopmann, D. Thalmann, M. Repettoy, G. Papagiannakis, P. Davy, M. Lim, N. Magnenat-Thalmanz, P. Barsocchix, T. Fragopoulos, D. Serpanos, J. Gialelis, A. Kirykou, “Chloe@University: an indoor, mobile mixed reality guidance system”, The ACM Symposium on Virtual Reality Software and Technology, VRST, 2007.
69. V. Chapurlat, D. Diep, A. Kalogeras, J. Gialelis, “Building and validating a Manufacturing Ontology to achieve Interoperability” Proceedings of I-ESA 2007 3rd International Conference on Interoperability for Enterprise Software and Applications.

2006

70. A. Lüder, J. Peschker, A. Bratukhin, A. Treytl, A. Kalogeras and J. Gialelis, “The PABADIS’ PROMISE – architecture” Proceedings of the ANIPLA 2006 conference on Methodologies for Emerging Technologies in Automation.
